Amazon – Global E-Commerce Intelligence Suite – Global E-Commerce Executive Overview

Report prepared and analytics conducted by Soham S. Amburle | 05 March 2026

The Global E-Commerce Executive Overview Dashboard provides a strategic, top-level executive analytics view within a global e-commerce model inspired by Amazon. Built on a synthetic dataset of 100,000 transaction-level records, this dashboard enables leadership to monitor business health, revenue performance, profitability, customer growth, marketing impact, product and inventory efficiency, and fulfilment operations.

Designed in Power BI using a star schema data model, the dashboard integrates Fact_Orders with dimensions for Date, Customer, Product, and Channel, enabling interactive and multi-dimensional analysis.

Executive Storyline and Visuals

The Global E-Commerce Executive Overview is designed to provide leadership with a high-level, actionable view of the business, enabling decision-makers to quickly assess revenue performance, profitability, customer growth, marketing effectiveness, product and category contributions, and operational efficiency. By combining KPI cards, strategic big visuals, interactive slicers, gauges, and order status insights, this dashboard empowers executives to monitor overall business health, identify growth opportunities, flag operational risks, and prioritize strategic decisions without needing to drill

Data Disclaimer: This project uses a fully synthetic dataset of 100,000 records for demonstration and testing only; no real-world data was used.

into granular data. It serves as a central hub from which leaders can navigate to detailed dashboards for deeper analysis, ensuring informed, timely, and data-driven decisions.

The dashboard is structured to provide immediate business insight and drill-down navigation:

- **Executive KPI Cards** – Eight cards summarizing total revenue, gross profit, gross margin %, total orders, total quantity sold, average order value (AOV), fulfilment cost, and prime customer %.
- **Big Strategic Visuals** – Six visuals giving a top-level overview:
  - REVENUE TREND OVER TIME (Line Chart)
  - REVENUE BY PRODUCT CATEGORY (Clustered Column Chart)
  - REVENUE BY REGION (Map)
  - SALES CHANNEL PERFORMANCE (Clustered Bar Chart)
  - CUSTOMER GROWTH TREND (Area Chart)
  - CATEGORY PROFITABILITY ANALYSIS (Scatter Chart: Revenue vs Gross Margin, Bubble size = Quantity)
- **Executive Slicers** – Six filters enabling leadership-level drill-down: Year, Product Category, Customer Segment, Sales Channel, Marketing Channel, Country.
- **Gauge** – REVENUE VS TARGET to monitor strategic goal alignment.
- **Donut Chart** – ORDER STATUS DISTRIBUTION (Delivered, Shipped, Cancelled, Returned %).
- **Navigation Buttons** – Eight buttons linking to the detailed dashboards: SALES PERFORMANCE, CUSTOMER INSIGHTS, MARKETING PERFORMANCE, PRODUCT PERFORMANCE, INVENTORY & SUPPLY, OPERATIONS OVERVIEW, FINANCIAL PERFORMANCE, FORECAST & SCENARIOS.

Business Value

This dashboard enables executives to:

- Monitor overall revenue, profitability, and margin trends
- Track customer growth and segment performance
- Evaluate marketing and sales channel efficiency
- Assess product and category profitability
- Monitor fulfilment efficiency and order health
- Navigate to detailed dashboards for deeper insights

By combining KPI monitoring, top-level visual analytics, slicers, gauges, donut charts, and navigation controls, the dashboard delivers a clean, executive-ready top-level view suitable for leadership briefings or portfolio demonstration.

Tools & Data

- Visualization Tool: Power BI
- Dataset: Fully synthetic global e-commerce dataset
- Record Count: 100,000 transaction-level records
- Time Period: 2021–2024
- Model Design: Star Schema (Fact_Orders with Dimension Tables for Date, Customer, Product, and Channel)
- Purpose: Top-level executive overview for strategic insights and portfolio showcase

Data Disclaimer: This project uses a fully synthetic dataset of 100,000 records for demonstration and testing only; no real-world data was used.
